

## **STACK SIZER™**

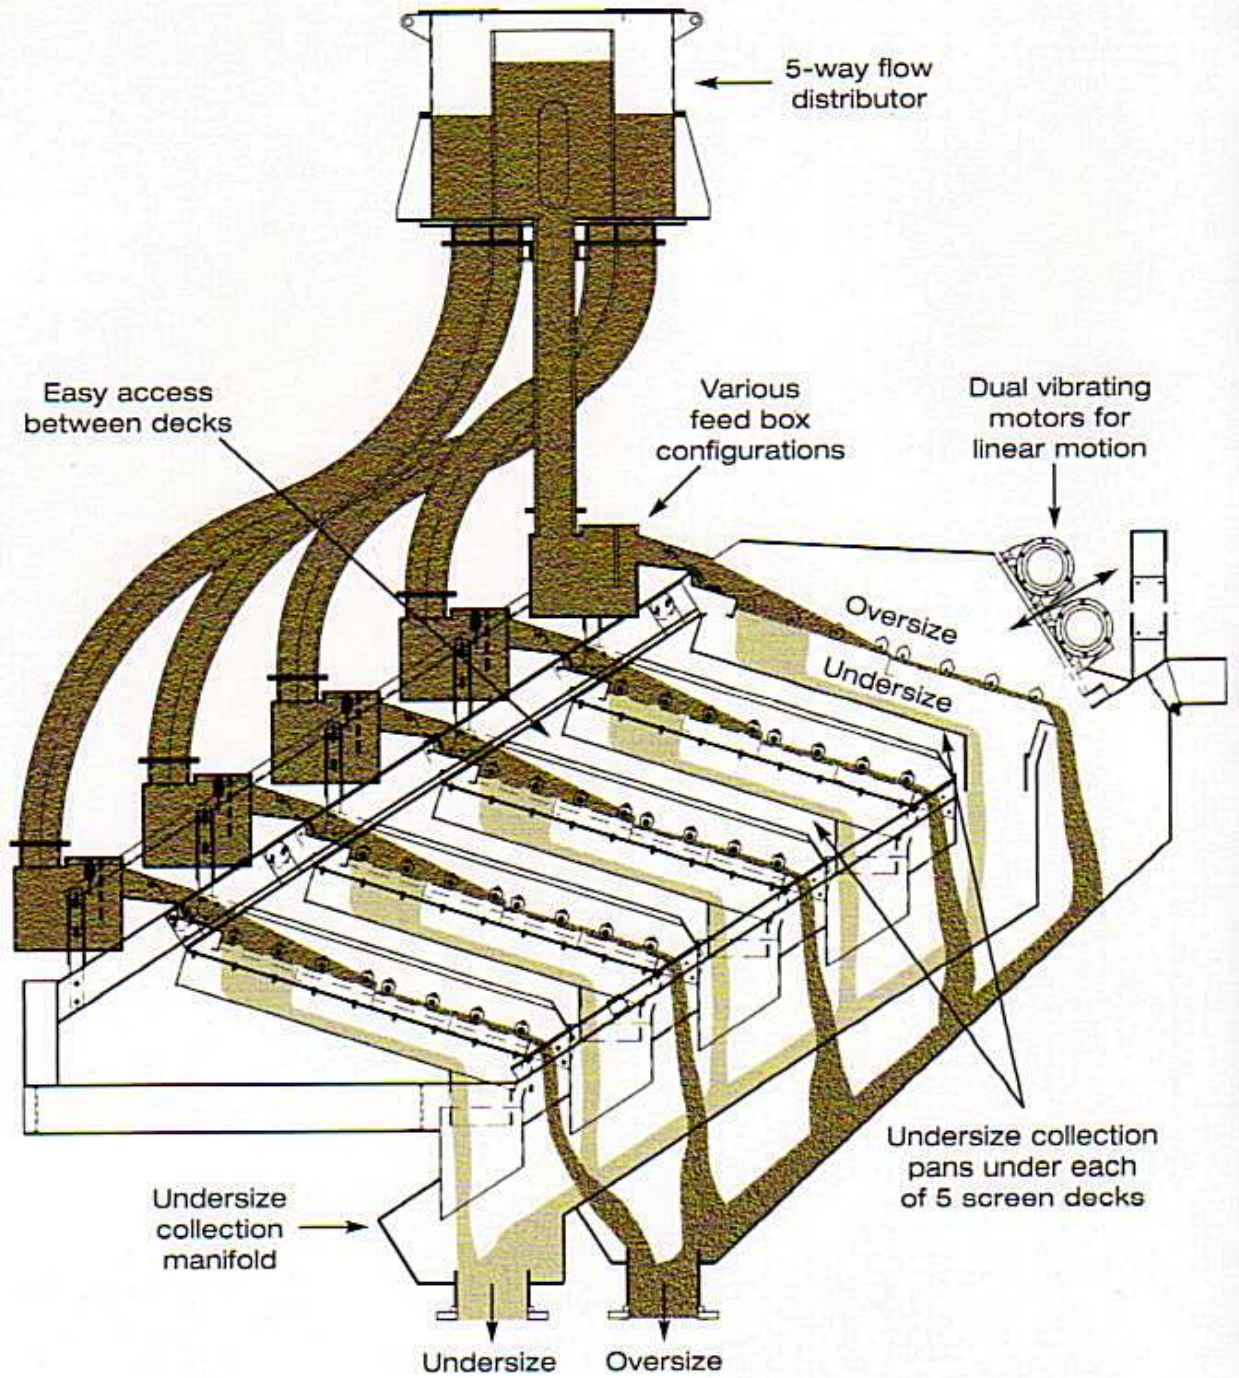

**Derrick Stack Sizer 56**

Never before has one screening machine had such a high capacity while minimizing floor space requirements.

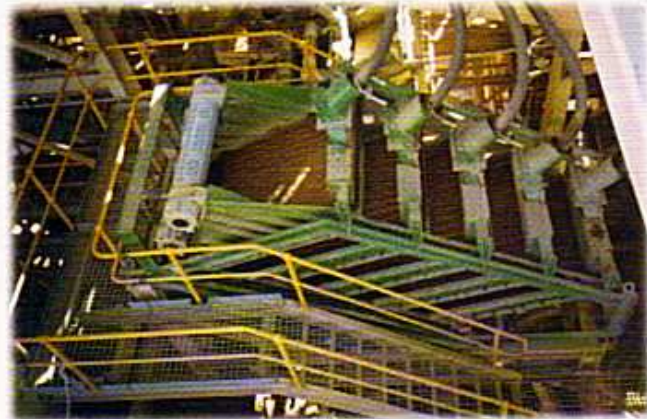

## PRINCIPLE OF OPERATION

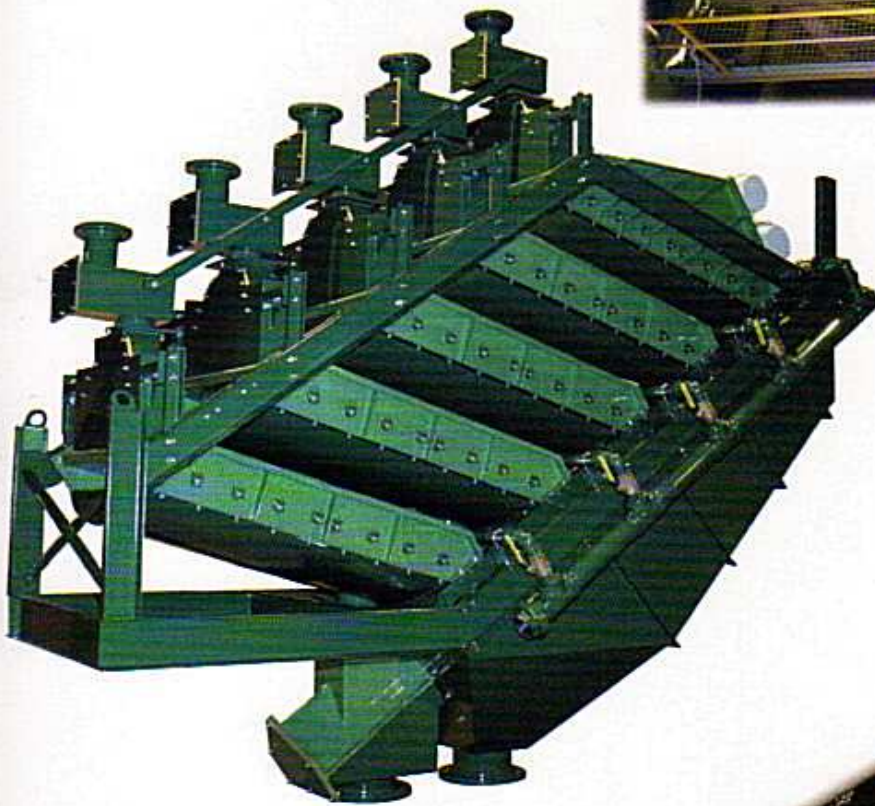

## FEATURES AND BENEFITS

- Highest capacity screening machine in the world
- Actually 5 screens in parallel, expanding on the original Derrick Multifeed screen concept
- Full-scale tests with various materials has demonstrated that one Stack Sizer could replace 2 to 4 Multifeed screens
- Linear motion, together with 15 to 25 degree inclination, results in excellent screening efficiency with high oversize capacity and conveyance
- Can be fitted with Derrick long life, high open area polyurethane screen surfaces or woven wire panels
- Patented technology

### Derrick Stack Sizer 48

## Approximate Weights and Dimensions

### Stack Sizer 48:

**Weight:** 9,750 lbs (4420 kg)

**Length:** 188" (4780 mm)

**Width:** 58" (1470 mm)

**Height:** 162" (4120 mm)

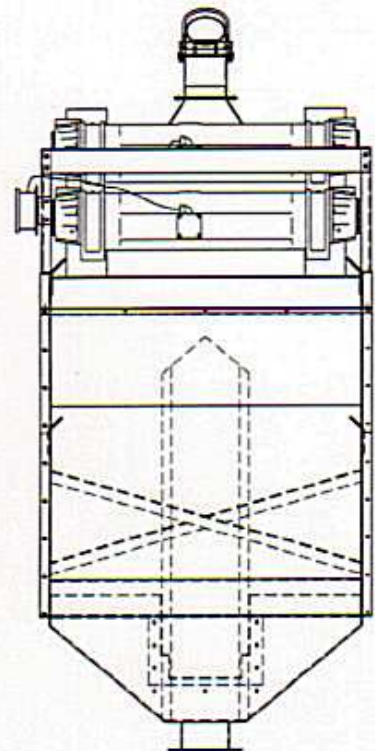

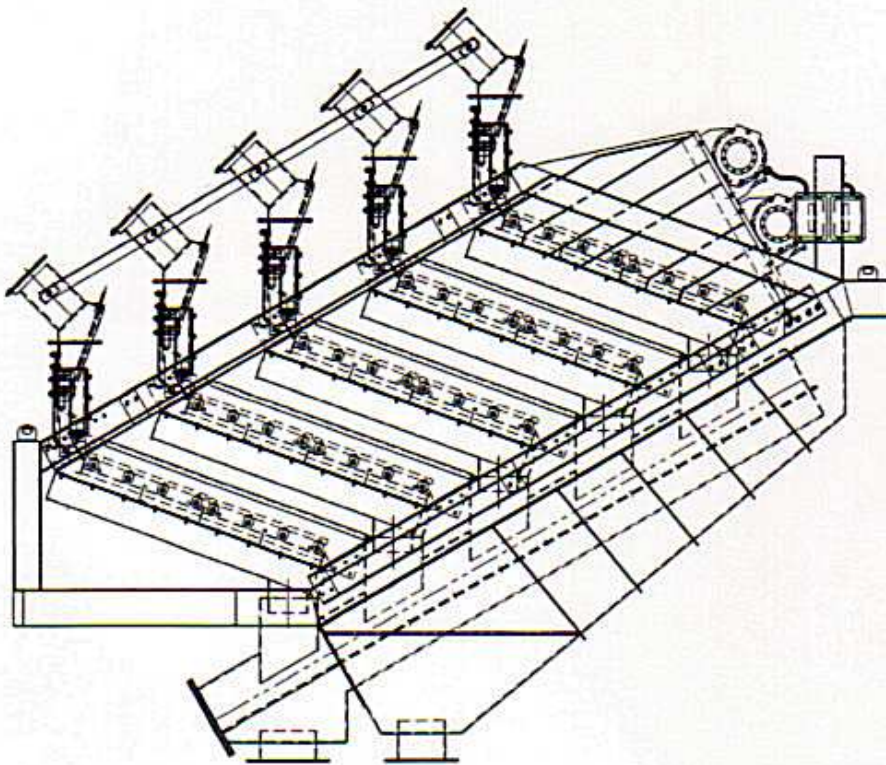

### Stack Sizer 56:

**Weight:** 11,250 lbs (5100 kg)

**Length:** 188" (4780 mm)

**Width:** 72" (1830 mm)

**Height:** 162" (4120 mm)
